

# COME *Fly Away:* REGISTER FOR FLIGHT SCHOOL TODAY!

Did you notice that beautifully designed cover on your July issue of WVMA Voice? You know, the one with the majestic Gray-Crowned Crane flying across the top of the page, graceful neck whimsically sticking through the first “O” in SCHOOL? Yep, that one. Caught your eye, didn’t it? When you read that article word for word, you probably immediately saved the date (Friday, October 3), cleared your schedule, and made plans to join us at the International Crane Foundation for the first-ever WVMA Flight School. The only thing you were waiting for was an official way to get signed up.

Well, your wait is over! **Flight School Registration is now open for WVMA members. And the full CE itinerary has launched.** We suggest you drop what you’re doing right now (unless it’s something surgical) and get signed up—not only to save your spot at what will be a super popular in-person event, but also to better your chances of getting your first and second choices of interactive experiences.

**We like to think all WVMA in-person CE events are can’t-miss educational get-togethers, but this time we’re taking things to new heights:**

- On-target lectures from acclaimed vet-med specialists in feline medicine, dermatology, rehabilitation, and internal medicine.
- A schedule full of six scientific CE credits you can put to work right away the next day.
- Interactive crane and habitat experiences guided by friendly, engaging ICF specialists.
- A breathtaking location and a full flock of fellow veterinarians ready to connect.

**Come fly away on a Friday.**  
**Join your flock at Flight School **October 3.****  
*(Don’t forget your binoculars!)*

The full  
schedule of  
on-target CE  
has launched.

Registration  
now open at  
**WVMA.ORG**
